This is in response to the renewed petition under 37 CFR 1.47(a) filed on 19 April 2007.

DISCUSSION

In a Decision mailed on 30 January 2007, the petition under 37 CFR 1.47(a) filed on 30 May 2006 was dismissed without prejudice because

Regarding requirement (4), the declaration filed on 30 May 2006 has been signed by joint inventors Rex Gallagher, John Juchum and James Johnson on behalf of themselves and non-signing joint inventor Dasheng Wang. However, the declaration is defective because it nominates "Rex T. Gallagher" in place of "GALLEGHER, Rex, T." whose name appears on the published international application. The record does not appear to address this discrepancy, such as an explanation of whether it arose from a mere typographical error. As such, it would not be appropriate to accept the declaration in satisfaction of requirement (4) at this time.

In response, petitioner states that

Applicants point out that "Rex T. Gallagher", the signing inventor on the declaration of May 30, 2006, and "GALLEGHER, Rex, T.", the listed inventor on the international application are the same individual, and the discrepancy in the spelling of the surname is merely the result of a typographical error in the international publication.

The correct spelling of the inventor's name is "Gallagher", as spelled and signed on the declaration filed May 30, 2006. Applicants submit the spelling of the name on the international publication results from a typographical error, and the discrepancy in the spellings was purely as a result of the typographical error and was without deceptive intent on the part of the Applicants.

Reference is made to MPEP 605.04(b), which explains in part that

When a typographical or transliteration error in the spelling of an inventor's name is discovered during pendency of an application, a petition is not required, nor is a new oath or declaration under 37 CFR 1.63 needed. However, applicants are strongly encouraged to use an application data sheet such that any patent to issue will reflect the correct spelling of the inventor's name. Without an application data sheet with the corrected spelling, any patent to issue is less likely to reflect the correct spelling since the spelling of the inventor's name is taken from the oath or declaration, or any subsequently filed application data sheet.

In view of applicants' explanation that the discrepancy in Mr. Gallagher's name arose from a mere typographical error, it would now be appropriate to accept the declaration filed on 30 May 2006. As such, all of the requirements of 37 CFR 1.47(a) have now been satisfied.

DECISION

The petition under 37 CFR 1.47(a) is **GRANTED**.

The \$750.00 petition fee under 37 CFR 1.137(b) was not required, and it is being refunded to Deposit Account No. 16-0605 per the Transmittal Letter filed on 30 May 2006.

As provided in 37 CFR 1.47(a), a notice of the filing of this application will be forwarded to the non-signing inventor at his last known address of record.

A notice of the filing of the application under 37 CFR 1.47(a) will be published in the Official Gazette.

The application is being returned to the National Stage Processing Branch for processing as the U.S. National Stage of the above-identified international application. Its date under 35 U.S.C. 371(c)(1), (2) and (4) is **30 May 2006**.
